

Accommodation for Higher Education Students

Whilst there is plenty of time to think about where you would like to live and the type of accommodation that would best suit you, and your budget, we advise that you should start looking as soon as you have received an offer.

There are various limited accommodation providers close to the campuses. These are private accommodation providers who have not been inspected by the college. We therefore strongly advise students to view the accommodation of their choice prior to signing any tenancy agreements. The Cornwall College Group is unable to take any responsibility for any agreements made between the provider and students. We have an information guide of what to think about when renting and moving into and out of accommodation which you may find helpful.

Please visit the websites below for information and room availability.
